Marie Meynadier, CEO of EOS imaging, said: “In 2016 we delivered a strong year of execution of our growth strategy. At a commercial level, our teams and partners continued to drive adoption of the EOS solution, including strong growth in the important North American market. We also entered Latin America, supporting the outlook for our business in these markets. At the same time, we continued to develop our product and service offerings through internal and partnership programs, highlighted by the initial roll out of our EOSApps portfolio in the European and North American markets. We look forward to continue building on this strategy in 2017 and further position our unique and cost-effective imaging solutions and software as a key solution for the needs of osteo-articular treatment and orthopedic surgery.”
